

Osmocote® Plus

15-9-12

Osmocote® Plus 15-9-12 Standard contains homogenous 100% resin-coated fertilizer cores that contain the major nutrients - Nitrogen, Potash, Phosphorous plus the secondary nutrients Magnesium and Sulfur, as well as the minor nutrients Boron, Copper, Iron, Manganese, Molybdenum and Zinc. Our unique coating made from plant resins releases nutrients with an even (standard) pattern over the time period.

Target Crops/ Special Uses

Osmocote® Plus 15-9-12 standard pattern-release works great on hanging baskets and potted plants grown in greenhouse production.

Adding a controlled release fertilizer to containers that contain plants that have a higher demand for nutrients, allows the grower to fertilize all the other plants with a standard water soluble program. Because Osmocote® Plus 15-9-12 is a complete fertilizer solution, it is also a popular with shorter term perennial plant grown in containers, outdoor planters, indoor gardens and landscape annual displays.

Because Osmocote® Plus fertilizer cores contain Ammoniacal and Nitrate Nitrogen with a top quality resin-coating, we can confidently recommend this product in production greenhouses and nurseries.

PRODUCT ADVANTAGES

- For use in greenhouse, nursery and foliage production, container gardens, interiorscapes and landscapes.
- Recommended for use when growing a wide variety of crops or in combination with water soluble fertilizer for a steady source of nutrition throughout the season.
- Osmocote® Plus contains N-P-K plus micronutrients in each prill. ICL Speciality Fertilizers Patterned Nutrient Release Technology™ meets specific feeding cycles with unmatched consistency, efficiency, and safety.
