

BIRD-X

Bird Deflector

A reflective, movable device that creates the illusion of blinding light when it spins in the wind.

The Bird Deflector launches a multi-sensory attack that scares birds away from the treated area. Sunlight and wind create flashing light that disorient and irritate pest birds.

Ideal For Use At:

- Vineyards and Orchards
- Home Gardens and Yards
- Porches, Balconies, and Patios
- Car and Parking Lots
- Fields, Barns, Stables, Orchards, Vineyards
- Public Parks and Ponds
- Boats, Harbors, Docks, and Marinas
- Private Beaches and Locations with Water
- Rooftops, home siding, and trees

Details

- Visual scare – birds are scared of the constantly changing reflections
- Physical deterrent – birds are impacted by the device on any surface
- Can be used alone or in combination with a sound device or a taste aversion
- Includes metal mounting bracket
- Weatherproof – designed for outdoor use
- Perfect pest bird solution for buildings, docks, agricultural applications, and more
