32 FL. OZ. (946 mL)

## Stop Animal Damage!™

This bottle  
will cover  
approximately  
1,000 square feet.

### EFFECTIVE AGAINST

### DIRECTIONS

Mice

Rats

This product is a highly effective solution for preventing foraging, bedding and entry caused by **mice and rats** when used according to the following directions. **1:** Shake container well before using. **2:** Apply a fine mist to areas that need protection such as baseboards, pantries, basements, attics, crawlspaces, warehouses, garages and other storage areas or entry ways, making sure all parts are covered, being careful not to over spray. When using on fabric, wood or other manufactured material, always test a small area before making broadcast applications to prevent possible staining. When using near edible crops, apply a perimeter application. **3:** Allow 20 minutes for the product to dry before watering of any kind. **4:** Repeat application as needed, usually every 30 days.

**NOTE:** Due to possible allergic reaction to one or more of the ingredients used to make this product, do not apply to plants that are grown for human or animal consumption. When spraying, ensure that the product does not contact food plants. It may, however, be used on dormant fruit and nut trees. This product works by smell and taste.

#### Storage and Disposal

Store at room temperature. When finished with contents, rinse this container and recycle.

#### Precautionary Statements

To reduce contact with skin, always wear gloves when handling. In case of eye contact or prolonged exposure to skin, flush thoroughly with water to reduce irritation. If swallowed, drink a glass of water.

Buyers guarantee limited to label claims.

If, for any reason, you are not 100% satisfied, Messinas will refund the suggested retail price or replace this product within thirty days of the date of purchase. Messinas will not be liable for any damage, direct or indirect. Refund or replacement of product is our only obligation.
