

Instructions

1. Place traps upright on solid surface and remove cap from lure bottle.
2. Insert lure bottle tip into center hole of trap. Empty half (15mL) of bottle into each trap.
3. Place the traps in areas where fruit flies have been seen. Place the traps where they will not be disturbed or tipped.
4. Discard the traps after 45 days of use.

Common Use Areas: Traps are most effective when placed near breeding sites. Place behind or under kitchen counters, sinks, dishwashers, food, near fruits and vegetables, and any other location where fruit is stored.

TERRO® Fruit Fly Trap₁ is designed to lure adult fruit flies, using the special food-based liquid lure. Flies that enter the trap can't escape to continue breeding.
