## PROFESSIONAL

### Granular ~ Natural

Designed & formulated for professional use

## VOLE REPELLENT

- All Organic Ingredients
- Non-toxic
- Environmentally Safe!

Vole Scram Professional is an organic, granular repellent used to reduce and eliminate Voles from your lawn. Vole Scram Pro will safely and naturally stop vole infestation when used as directed. **Apply Vole Scram with a broadcast spreader using the settings below or apply by hand with scoop in beds, mulch or rough grass. Early Sept, Early Oct. apply a 20 foot band to the perimeter of the property where voles are nesting during the summer months. This will help reduce voles from entering the property. DIRECTIONS FOR NORTHERN SNOWFALL REGIONS: 1<sup>st</sup> Application (Late October After Irrigation Is Off) Apply to areas that have repeated winter vole infestation each year. 2<sup>nd</sup> Application (November - 14 Days After 1<sup>st</sup> Application ) Re-apply to the same areas prior to snowfall (Voles problems seem to be heaviest in areas where snow drifting occurs) 3<sup>rd</sup> Application (Early Spring/Late Winter) Apply immediately after snow melt. DIRECTIONS FOR MIDWEST & SOUTHERN REGIONS: Apply 2 applications, 2 weeks apart, to areas that are showing vole damage. Repeat again 30 days after 2<sup>nd</sup> application.**

SPREADER SETTINGS:		
Lesco		22
Scott Speedy Green	14	Earthway Broadcast 25
Scott Easy Green	32	EZ Broadcast Republic 15
Red Devil Broadcast	16	Quaker Broadcast 14

*These may need to be increased in order to provide easy flow.*
