

BED BUG SAUNA HEAT CHAMBER

Our exclusive infrared heat chamber eliminates all bed bugs – including adults, nymphs, and eggs – no matter how deeply they've rooted into beds, couches, chairs, drapes, framed pictures, books, personal effects, and even electronics.

- Portable, easy to set up and use, and built for commercial use
- Delivers targeted heat treatments that reduce or eliminate the need for chemicals
- Operates quietly and consumes 50% less energy than forced air systems
- Large enough for king size beds, the Bed Bug Sauna is 92" wide x 92" long x 71" high
- Constructed of durable, R-rated fabric designed to keep the heat inside the chamber
- Perfect for pest control companies, hotels and motels, shelters and missions, student and government housing, assisted living communities, and other industries
