Imidacloprid 0.5G Insecticide

For systemic insect control in turfgrass and landscape ornamentals.

ACTIVE INGREDIENT:
Imidacloprid, 0.5-G

OTHER INGREDIENTS:

EPA Reg. No. 430-1300-73099

STOP - Read the label before use. KEEP OUT OF REACH OF CHILDREN

CAUTION

This product contains a material that will cause injury if swallowed, inhaled, or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

HARMFUL IF SWALLOWED. CALL 1-800-308-5391 FOR MEDICAL TREATMENT ADVICE.

FIRST AID

IF IN EYES: Wash with water for 15 minutes or until pain subsides. If irritation persists, seek medical attention.

IF INHALED: Move to fresh air. If not relieved, seek medical attention.

IF INGESTED: DO NOT INDUCE VOMITING. Do not give anything by mouth to an unconscious person. Seek immediate medical care. Do not induce vomiting. For medical treatment advice, call 1-800-308-5391.

NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water or to areas where surface water is present, or to areas from which surface water may be derived. Do not contaminate water, food, or feed by storage or disposal.

INSTRUCTIONS FOR USE

1. Read and follow all label instructions carefully.
2. Ensure that the product is applied uniformly as indicated on label.
3. Make applications prior to anticipated pest infestation to achieve optimum control.
4. Avoid applying products on the day of anticipated rainfall to ensure proper product placement.
5. Use appropriate equipment settings and speeds as indicated on label.

APPLICATION EQUIPMENT

Refer to label sections on application equipment and spreader settings.

For optimum control, mechanical incorporation, irrigation, or rainfall should occur within 24 hours after application to move the active ingredient into the soil. Avoid runoff or puddling of water to prevent application of product to non-target areas.

NOTE:

If rainfall does not occur within 24 hours after application, irrigate to move the active ingredient through the thatch. On golf courses, irrigate treated areas following application.
