Oxadiazon 2G Herbicide

For control and application by professionals only. Not for use to be used home owners/consumers. Not for use on lawns. Oxadiazon 2G is a selective, preemergence herbicide for control of annual grasses and broadleaf weeds in turf and woody ornamental shrubs, vines, and trees.

ACTIVE INGREDIENT:

Oxadiazon (2G method) 4.0-4.6% [street procedure] 0-1.3-4 oxadiazon2-4-6-es 8.3% 1.3% 0.8%

OTHER INGREDIENTS:

TOTAL:

15.8%

EPA Reg. No.: 48234-GA-001 R; 37425-GA-001 B T; 37425-GA-002 B O

PESTICIDE DISPOSAL:

Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container so that the neck and application equipment is not held in front of the user at any time. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after pouring rinsate into application equipment or a mix tank. Dispose of unopened product container at once.

PESTICIDE STORAGE:

Store in dry area. Do not store near other pesticides or fertilizers. Avoid contact with eyes, skin or clothing. Wash hands thoroughly after handling this product. Do not contaminate water supplies.

STORAGE AND DISPOSAL:

Do not contaminate water supplies. Do not contaminate water supplies. Do not contaminate water supplies. Do not contaminate water supplies. If you do not understand the label, find someone to explain it to you in detail.

**PRECAUTIONARY STATEMENTS**

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

Caution: Use only as directed. Contact person immediately if product is swallowed or ingested. Wear protective eyewear such as goggles, face shield, or safety glasses. Wash exposed skin with soap and water. Use as indicated. If ingested, give water or milk. Allow to vomit. Use activated charcoal. Float as necessary. Do not attempt to induce vomiting. If the product is on the skin, wash exposed skin with soap and water. If product is in the eyes, flush with water for 15 minutes. Keep out of reach of children.

**VENTILATION REQUIREMENTS**

For indoor use, ensure proper ventilation. For outdoor use, avoid working in direct sunlight and wind. Use in areas where ventilation is adequate for dispersal of fumes and gases. Do not use in closed spaces or where ventilation is inadequate. Avoid unnecessary inhalation of product vapor. Do not inhale dust or mist. Keep out of reach of children. Use only in well-ventilated areas.

**PRECAUTIONS FOR USE**

PRECAUTIONS FOR USE include:

- Wear personal protective equipment (PPE).
- Use in accordance with label directions.
- Follow the application rate as indicated on the label.
- Do not apply to wet foliage.
- Do not mix with other products.
- Avoid contact with eyes, mouth, and skin.
- Do not contaminate water, food, or feed.
- Do not contaminate livestock or pets.
- Do not contaminate food use fields or food or feed animals.
- Do not contaminate wildlife habitats.
- Do not contaminate soil.
- Do not contaminate water bodies.
- Do not contaminate wells.
- Do not contaminate irrigation systems.
- Do not contaminate power lines or other utilities.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, bees, and aquatic organisms. It is highly toxic to aquatic organisms. Fish and wildlife mortality may occur if this product is applied to surface waters or irrigation systems. The application of this product must be avoided in waters or areas that are important for fish or wildlife habitat. Do not apply to waters that are important for fish or wildlife habitat.

**DIRECTIONS FOR USE**

This product is a non-selective herbicide that kills broadleaf weeds and grasses in a single application. It is effective against a wide range of annual and perennial weeds. It is a contact herbicide, meaning it kills weeds by contact with the foliage. It is not a systemic herbicide, meaning it does not move through the plant and kill it from the inside. It is a restricted-use pesticide, meaning it must be applied by a certified pest control professional.

**GENERAL INFORMATION**

Quail Pro Oxadiazon 2G is a systemic herbicide with an excellent side-by-side trial. It is effective against a wide range of annual and perennial weeds. It is a contact herbicide, meaning it kills weeds by contact with the foliage. It is not a systemic herbicide, meaning it does not move through the plant and kill it from the inside. It is a restricted-use pesticide, meaning it must be applied by a certified pest control professional.

**VISIT OR ORDER**

For more information or to order, please contact your local pest control professional.
